Labels : Tannen records / Inconsapevole / Mabel

Release Date : October 4 2010

Formats : CD/LP

They represent the very tense of the verb rock'n'roll.

A wink at the past, eyes wide open in the here and now and the will to shrug off any constraining label that might come along.

This attitude converged in the sound of Rainy Days, which answers to its own name in its own right.

Rainy Days is the second recording by Bad Love Experience and the first to be released after winning number one Fuori dal Mucchio 2006/2007 competition as best debut release by Italian artist, which was issued by Mabel records

The original trio was formed by Valerio Casini (born in 1985, vocals and guitar), Emmanuel Voliani (born in 1985, bass and vocals) and Gabriel Bogi (born in 1985, drums).

On this album, Claudio Laucci (born 1982, piano, organ and back-up vocals), also organist for the group Le Gorille, joined the bandwagon giving Bad Love Experience an even greater groovy sound.

A sound convincing enough to get Justin Perkins to produce the album.

Justin, sound engineer and producer at the ex. Smart Studios ([www.smartgeeks.com](http://www.smartgeeks.com)) in Madison (Wisconsin) owned by producer Butch Vig and Steve Marker, has already worked with Ben Weasel, The Leftovers, Cory Chisel, The Riverdales, and The Goodnight Loving.

The album was mastered at Mastermind Productions in Milwaukee by Trevor Sadler (who has worked with David Byrne and Peter Gabriel). The new album was concocted in Livorno, the band's hometown, which shines amongst the highest-rated rock city in Italy.

Listening to "Rainy Days" you can breathe the London atmosphere, its charming, cool and libertine past (Ballad of a Libertine), in other words much of the Swinging London's character.

Bad Love Experience, in their first single "21st Century Boy", shows how to face the wild individualism of their own generation. "The Days" is such a paean to the musician's trade, as hard as beautiful.

Then you have "Break Away", in which the band talks about those artists who hunger for celebrity, suggesting them to separate beauty from glory. The title of the album, "Rainy Days", is therefore a metaphor that fully sums up these and other more anguished lyrics (Mr. and Mrs. Beloved, All the Heroes unfamous people)

Rainy Days is available on LP on Tannen Records, CD on Inconsapevole/Mabel Records, iTunes and Amazon.

Three tracks of the album are on the soundtrack of the movie La Prima Cosa Bella by Paolo Virzi distributed worldwide by RTI Medusa.

Among them, 21st Century Boy received the nomination for the David Di Donatello 2010 (Italian Oscar) for Best Original Song in a movie.
